terrazzo

El ‘nuevo terrazo’ tiene piel de cerámica.

El posicionamiento del terrazo como tendencia va más allá de la decoración. Moda y diseño industrial también han sucumbido a este clásico recuperado. En interiorismo, sus usos se alargan por doquier, decorando desde suelos y paredes a bancadas, encimeras, cojines o elementos decorativos.

Una de las ventajas de la cerámica imitación terrazo es que puede recrear casi cualquier color de tendencia, como el beige, que se ha convertido en el último grito de los pavimentos de terrazo.

The ‘new terrazzo’ has ceramic skin.

The positioning of terrazzo as a trend goes beyond decoration. Fashion and industrial design have also succumbed to this recovered classic. In interior design, its uses extend everywhere, decorating everything from floors and walls to benches, countertops, cushions or decorative elements.

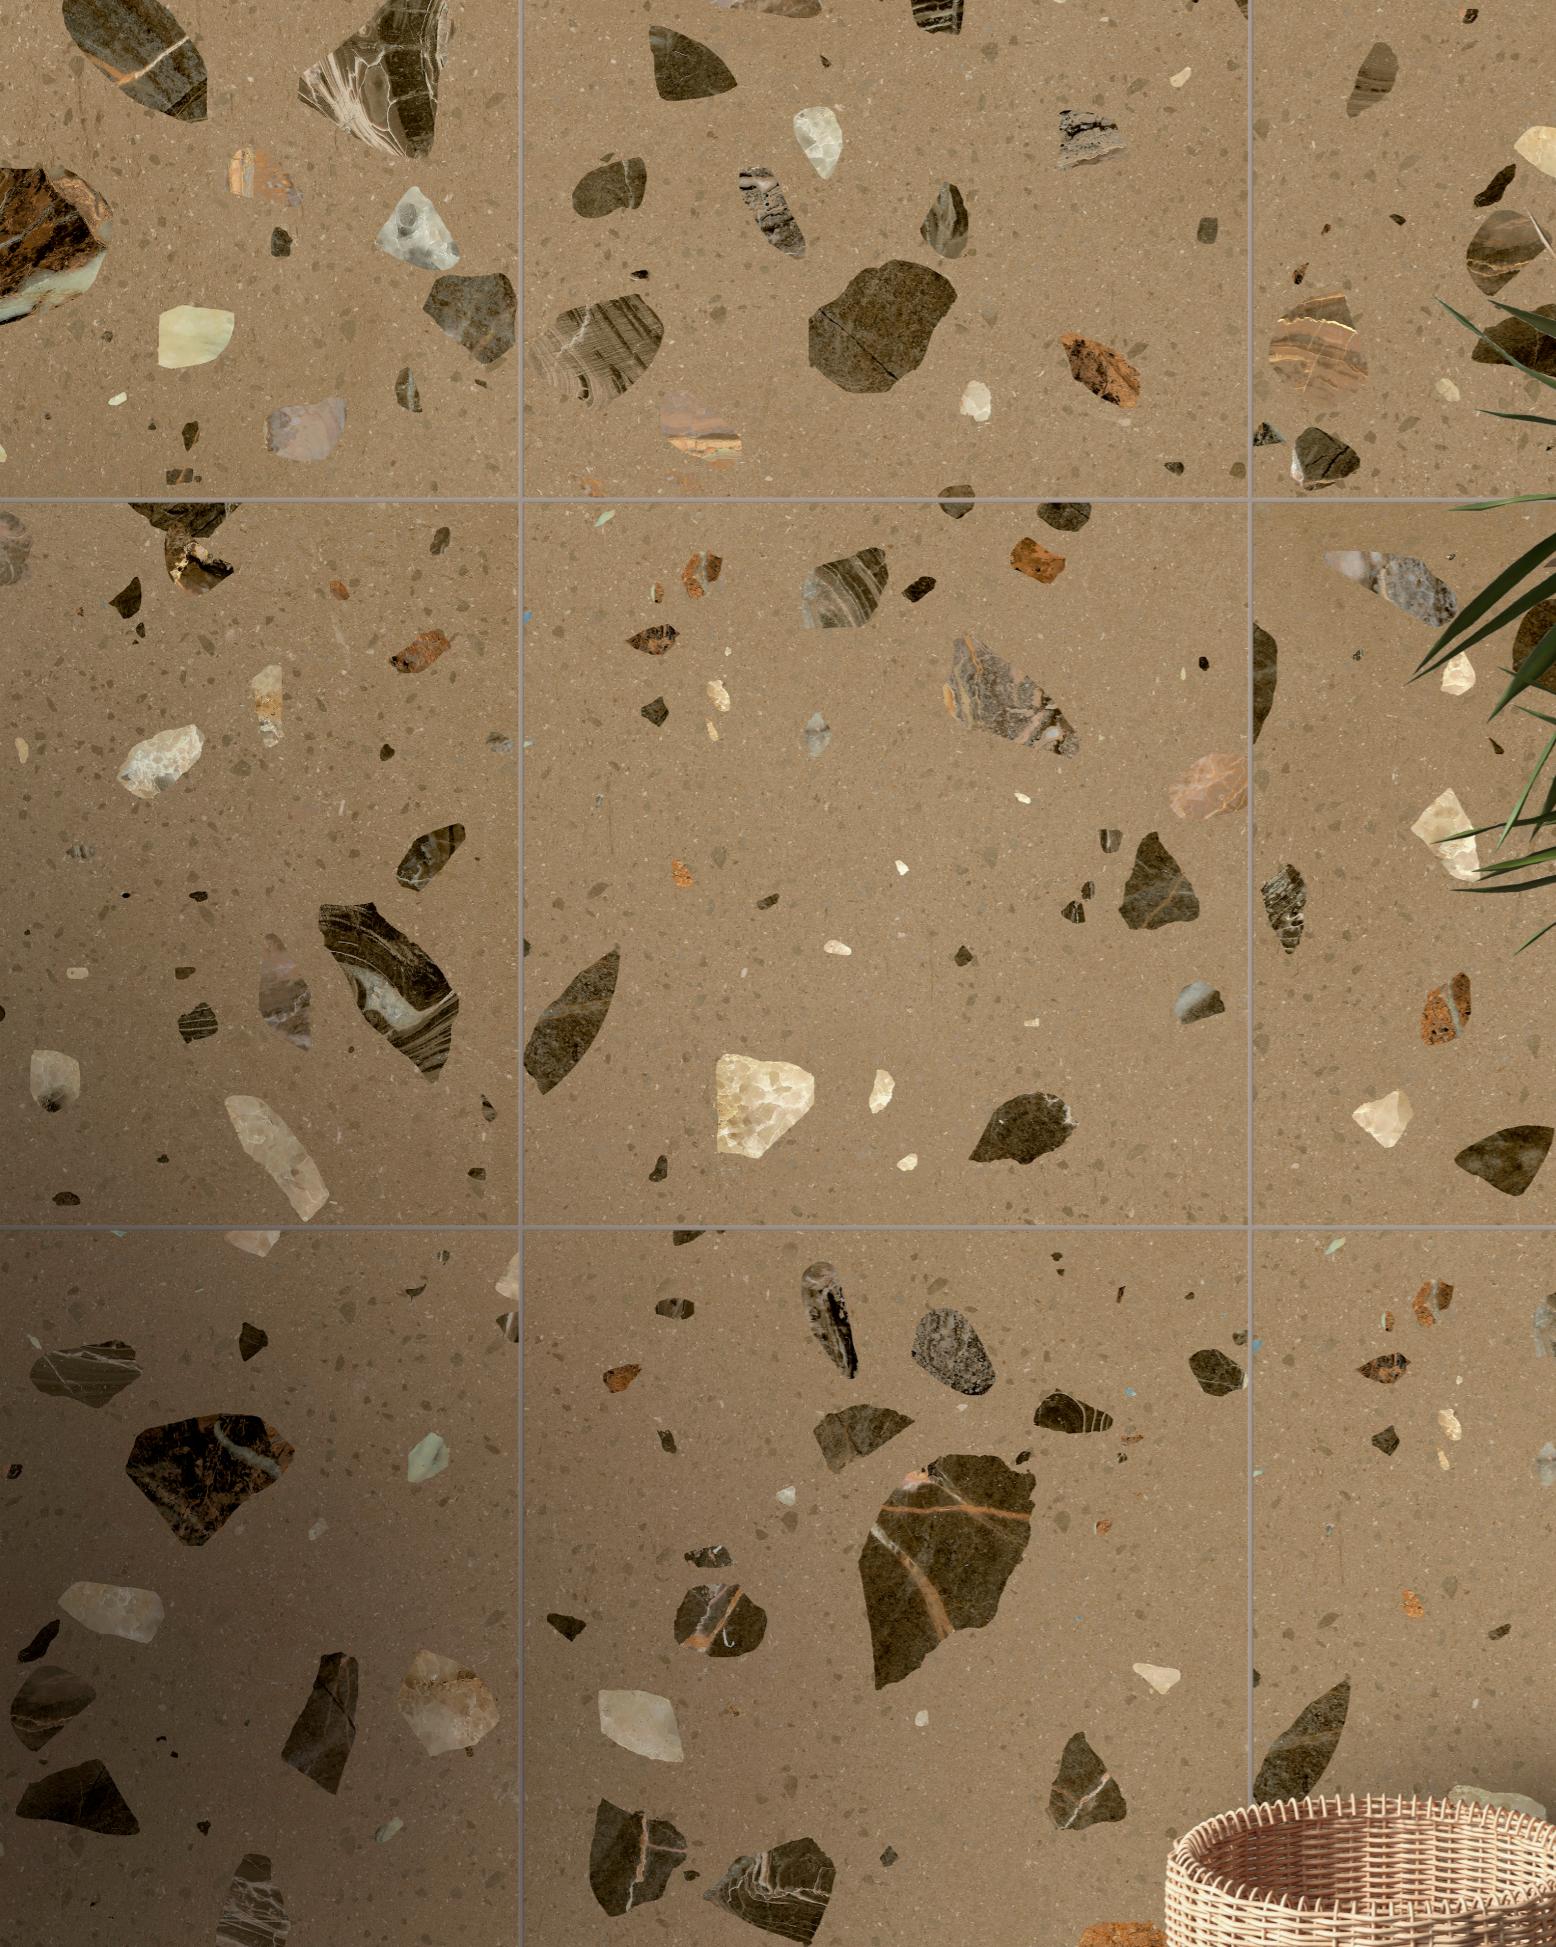

One of the advantages of terrazzo-effect ceramics is that it can recreate almost any trendy colour, such as beige, which has become the latest trend in terrazzo flooring.
